Dear friends,

Last week, five non-permanent members were elected to the United Nations Security Council. Among them was Switzerland, one of GAAMAC's founding members and its Chair until 2020.

Switzerland carries high the torch of atrocity prevention and we rejoice in its election at the UN Security Council. We hope that Switzerland will continue to support and strengthen the preventive capability of the Council. Now more than ever, we see the need to ensure the full and universal implementation of international law to make a difference on the ground.

Prevention is not a one-off endeavor. It needs long-term political and financial support to nurture change and bear fruit. Join our current supporters in making atrocity prevention a reality!

Kind regards,

Judge Silvia Fernández de Gurmendi,
GAAMAC Chair
Situation in Ukraine: what are GAAMAC member States doing?

GAAMAC's community members have called for atrocity perpetrators to face the consequences of their actions.
