Dear friends,

As we observe Genocide Awareness Month, we dedicate this newsletter to all victims and survivors of genocide throughout the world. The activities below testify of GAAMAC's efforts to raise awareness on, address and prevent the crime of genocide.

Our Founding Document is clear: no society is immune to atrocity crimes. The current atrocities occurring in Ukraine and other countries show that peace and stability are never a given, and that the risk of mass violence is very real in many parts of the world.

And so we all share the responsibility for the early and permanent prevention of atrocity crimes. From identifying early signs such as hate speech, to highlighting the gender impact of these crimes, to combatting historical revisionism, the GAAMAC community tackles a variety of topics.

We are grateful to our partners, experts and allies for joining our fight. And we thank you too, for your readership and support.

King regards,

Judge Silvia Fernández de Gurmendi,
GAAMAC Chair
Conflict in Ukraine heightened risks of mass atrocities

A selection of statements from GAAMAC community members on the situation in Ukraine.
